DETAILED ACTION

Response to Amendment

1. The declaration filed on July 01, 2005 under 37 CFR 1.131 is sufficient to overcome the Abe, Nakamura and Muellen references.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:
 - a. Claims 1-20 are allowed because the prior art of record neither anticipated nor rendered obvious all the limitation of the base claim including 1 a down-converting luminophoric medium arranged in receiving relationship to said first relatively short wavelength radiation, and which in exposure to said first relatively short wavelength radiation, is excited to responsively emit radiation in the visible white light spectrum.
 - b. Claims 25-30 are allowed because the prior art of record neither anticipated nor rendered obvious all the limitation of the base claim 25 including a luminophoric medium arranged to be impinged by radiation from the LED in the blue to ultraviolet spectrum and to responsively emit radiation in a range of wavelengths, so that radiation is emitted from the light emission device as a white light output.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
